INSTRUCTIONS

How to use this template?

- Click on "File" and then "Make a Copy" of the template to use it.
- Edit each of the slides and table to add your responses.
- Come up with a catchy title for the project and do not simply write "Minor Project 3: Search Engine Optimisation Strategy for FlinkIt".
- Use the primary colours and logo of the assigned brands on the Cover Page and wherever necessary in the project.
- Feel free to use your creativity to make the most use of the given template.
- The maximum Number of Slides that can be used is 20.
- Once you are happy with your responses, click on "Share", download it into a PDF file and submit it on the MyCaptain WebApp.

PROBLEM STATEMENT

In today's fast-paced urban lifestyle, consumers often struggle to find time for grocery shopping due to busy work schedules, traffic congestion, and long checkout queues.

Many customers face problems such as:

- Lack of time for daily shopping
- Urgent need for essential items
- Delayed deliveries from traditional e-commerce platforms
- Limited access to nearby stores during late hours
- Inconvenient in-store shopping experience

As a result, there is a growing demand for a fast, reliable, and convenient instant delivery solution.

💡 Solution:

FlinkIt aims to solve this problem by providing 10–20 minute grocery delivery, ensuring speed, convenience, and affordability for urban customers.

OBJECTIVES

- To build strong brand awareness for FlinkIt in target cities
- To increase app downloads through strategic content marketing
- To create engaging social media content for higher interaction
- To improve website visibility using On-Page SEO techniques
- To drive repeat purchases through offers and promotions
- To establish FlinkIt as a fast and reliable delivery solution

APPROACH

- Conduct market and competitor research to understand the quick commerce industry
- Identify target audience needs and buying behavior
- Develop a content strategy based on defined content pillars
- Create a structured weekly content calendar for social platforms
- Implement On-Page SEO using relevant keywords and optimized meta tags
- Design consistent brand visuals aligned with FlinkIt’s identity
- Track performance using KPIs and optimize strategy accordingly

TASK 1 - CREATE A WEBSITE STRUCTURE

- Frozen Foods
- Baby Care

🛍️ Product Page Ideas

- Amul Milk 1L
- Fresh Organic Tomatoes
- Britannia Bread
- Tata Salt
- Surf Excel Detergent
- Coca-Cola 2L
- Aashirvaad Atta
- Lays Classic Chips

TASK 4 - CONTENT STRUCTURE

📝1️⃣ Blog Page Structure

Title: How to Save Time with 10-Minute Grocery Delivery

- Introduction (Problem of busy lifestyle)
- Why Traditional Grocery Shopping Takes Time
- What is 10-Minute Delivery?
- Benefits of Instant Delivery
- Why Choose FlinkIt?
- Conclusion + Call to Action

2 Product Page Structure

Product: Amul Milk 1L

- Product Image
- Price & Offer
- Short Description
- Product Details
- Key Features
- Customer Reviews
- Add to Cart Button

🛒3️⃣ Category Page Structure

Category: Fruits & Vegetables

- Category Banner
- Short SEO Description
- Product Listing Grid
- Filter & Sort Options
- Why Buy from FlinkIt?
- Internal Links

TASK 5 - COMPETITIVE ANALYSIS

🎯 Selected Competitor

Swiggy Instamart

🔍 Top Ranking Pages

- Home Page – Instant Grocery Delivery
- Category Pages – Fruits, Dairy, Snacks
- Offer & Discount Pages
- App Download Page
- City-Specific Landing Pages

STRENGTHS	WEAKNESSES
1.Strong brand trust (Swiggy ecosystem) 2.User-friendly mobile app	1.new brand with low recognition 2.limited delivery coverage
OPPORTUNITIES	**THREATS**
1.Growing demand for quick commerce 2.Rising online grocery usage	1.Strong competitors (Blinkit,Zepto) 2.price wars & heavy discounting

TASK 6 – KEYWORD RESEARCH

📝 Blog Page Keywords

Topic: 10-Minute Grocery Delivery

- 10 minute grocery delivery
- instant grocery delivery
- fast grocery delivery app
- online grocery delivery service
- benefits of quick commerce
- grocery delivery near me
- same day grocery delivery

🛒 Product Page Keywords

Product: Amul Milk 1L

- buy Amul milk online
- Amul milk 1 litre price
- fresh milk delivery
- Amul milk home delivery
- order milk online
- dairy products online

🥦 Category Page Keywords

Category: Fruits & Vegetables

- fresh fruits and vegetables online
- buy vegetables online
- farm fresh vegetables delivery
- online fruit delivery
- vegetables delivery near me
- organic fruits online

TASK 7 - ON-PAGE ELEMENTS

You also have to list down all the On-page elements that you are going to use while optimising the website.

🔍 Important On-Page SEO Elements

- Title Tag (SEO optimized page title)
- Meta Description
- Header Tags (H1, H2, H3)
- SEO Friendly URL Structure
- Keyword Optimization in Content

🖼️ Content & Media Optimization

- Image Optimization (ALT Tags)
- Internal Linking

⚙️ Technical SEO Elements

- Schema Markup (Structured Data)
- XML Sitemap
- Robots.txt

TASK 8 - EXAMPLE BLOG

Write a 300-word paragraph on the blog topic that you've picked up. Use keywords and write the on-page elements for it.

10-Minute Grocery Delivery: The Future of Online Shopping

In today's fast-paced lifestyle, people are always looking for ways to save time and make daily tasks easier. Grocery shopping, which once required visiting crowded stores and waiting in long queues, has now become much simpler with **10-minute grocery delivery services**. With platforms like **FlinkIt**, customers can order their daily essentials online and receive them at their doorstep within minutes.

The concept of **instant grocery delivery** is rapidly growing in urban areas where convenience and speed are highly valued. Instead of spending time traveling to supermarkets, users can simply open a mobile app, browse through a wide range of products, and place an order in seconds. From fresh fruits and vegetables to dairy products, snacks, and household essentials, everything is available with just a few taps.

Another major advantage of **online grocery delivery** is the ability to compare prices, view offers, and choose from multiple product options without leaving home. This makes shopping more efficient and cost-effective for customers. In addition, fast delivery services ensure that fresh items like milk, vegetables, and bakery products reach customers quickly.

FlinkIt focuses on providing a reliable and user-friendly grocery delivery experience. With a simple interface, secure payment options, and quick order processing, the platform ensures customer satisfaction. Whether you need groceries for the day or ingredients for a quick meal, **FlinkIt's fast grocery delivery service** helps you save both time and effort.

As technology continues to improve, **instant grocery delivery apps** are becoming an essential part of modern living. They offer convenience, speed, and accessibility, making everyday shopping easier than ever before.

CONCLUSION AND TAKEAWAYS

This project helped me understand the **importance of SEO strategy in digital marketing**. I learned how search engine optimization improves website visibility, increases organic traffic, and helps businesses reach their target audience online.

Through this project, I understood key SEO elements such as **keyword research, on-page SEO, off-page SEO, meta tags, and content optimization**. These techniques help websites rank higher on search engines and improve online presence.

In the future, I will use this knowledge to **create SEO-friendly content, optimize websites, and build strong digital marketing strategies**. By applying these SEO techniques, I aim to increase website traffic, improve search rankings, and achieve better marketing results for businesses.

Overall, this project has strengthened my understanding of **SEO strategy and its role in achieving digital marketing goals**.
